

OBSERVATIONS

Worksheet

- 1** During each walk, pause once or twice and make notes about your dog's head:
- Is it held high, low or in a neutral position?
 - Are their ears pricked, pinned back or neutral?
 - Is their mouth open or closed?
 - Can you see their nose moving or not?

2

During each walk, pause once or twice and make notes about your dog's tail position:

- Is it held high, low or in a neutral position?
- Is the tail loose and relaxed or held tightly?
- Is their tail wagging or still?
- If it is wagging, is the wag wide or narrow?
- If it is wagging, is the tail moving fast or slow?

There is no need to write this all down at the time, just make mental notes.

When you have time, you can note down the things you spotted and see if you can see any patterns.
